Congratulations to ORRA member **Monica Rodriguez**, Weichert Realtors® Hallmark Properties, who won two tickets to an Orlando Magic game from FBC Mortgage at the lender's open house celebration for its new office.

(l to r) **Joe Nunziata, FBC Mortgage;**  
**Monica Rodriguez**

Congratulations to ORRA member **Vladimir Davydov, GRI**, Florida

Dream Realty and Mortgage, who earned the Graduate Realtor® Institute (GRI) designation.

Congratulation to ORRA member **Karen Sanders**, Les Perez Realty and Associates, who has been named a semi-finalist in the Real Estate Apprentice Founda-

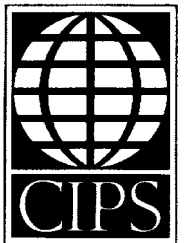

tion's grant program. According to the foundation's website, the program is designed to spotlight the importance of real estate apprenticeships for the public good, the enhancement and betterment of the U.S. residential real estate brokerage industry, and to raise the standards and levels of professionalism for real estate agents in general. In addition, the pro-

**Sanders**

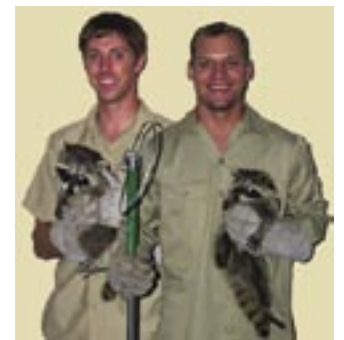

gram seeks to assist new licensed agents entering the real estate industry, to overcome their fears and obstacles, and to facilitate the creation of top producing sales people. Sanders essay was judged the basis of salesmanship and communication skills, entrepreneurial spirit, integrity, creativity, and uniqueness. For more information, visit [www.realestateapprentice.com](http://www.realestateapprentice.com).

Congratulations to ORRA member **Lesley Dolby, CIPS**, Dolby Properties, Inc., for earning the Certified International Property Specialist (CIPS) designation. ORRA member **Dominique Cambell-Combe, CIPS**, also with Dolby Properties, Inc., has earned the Certified International Property Specialist designation as well. 🍀

## AFFILIATE SPOTLIGHT >

### Wildlife Patrol

**O**RRR Affiliate member Wildlife Patrol understands that while most people enjoy wildlife, they enjoy it in the wild and not in their own homes. Rats, squirrels, and raccoons cause unsettling noises in a building and leave their wastes behind. Animals also cause damage in the attic of a home, where electrical wires, AC ducts, and plumbing are all at risk. These critters can bring in a host of parasites and diseases that are transmissible to pets and humans.

Wildlife Patrol seeks to solve animal problems solves quickly, and in most cases, permanently. It strives to give customers both peace of mind and safety while doing its best to respect nature as well. Wildlife Patrol employees approach every job as if they were working on their own homes.

Wildlife Patrol is a small owner-operated company, and both owners have degrees from the University of Notre Dame. For more information and examples of situations that the company can resolve, visit [www.wildlife-patrol.com](http://www.wildlife-patrol.com). 🍀
